

PROPANE DOMESTIC GASFITTER Licensing Examination Information

Domestic Gasfitter License holders are already qualified for domestic propane service and installation.

You require the following prerequisites before you may apply for this examination:

- 36 months/5400 hours trade experience in the propane gas industry;
- submit documentation showing completion of:
 - Propane Gas Association course 100-1 (propane dispensing)
 - Propane Gas Association course 100-4 (re-inspection of cylinders)
 - Liquefied Petroleum Gas Service course PETR-290 (SAIT) **This course no longer offered (See Note 1 below)**

Note 1: The Liquefied Petroleum Gas Service course PETR-290 is no longer offered, alternative course(s) are currently under review. This examination is being suspended from use till alternative course(s) can be determined. Only candidates that have previously been deemed eligible to write this examination or have previously successfully completed all required courses will be allowed to write the Propane Domestic Gasfitter examination.

The **Propane Domestic Gasfitter** trade examinations are developed by the Apprenticeship and Trade Certification Commission in co-operation with a committee of worker and employer representatives selected from industry. The pass mark for all examinations is 70%. Examination content is based on the expectations and standards for Saskatchewan tradespeople as follows:

Subject	Percent
Testing and Servicing	11%
Mathematics and Trade Science	19%
Rough-in Procedures	23%
Venting	15%
Installation of Equipment	14%
Controls	12%
Safety	6%
	100%

Note: The 2010 CSA Natural Gas and Propane Installation Code and the 2010 CSA Propane Storage and Handling Code will be provided when you write the examination.

Study all areas of the trade in preparing for the examination.

To view the courses required to be eligible to write this examination go to the following websites:

- Propane Gas Association course 100-1 (propane dispensing)
- Propane Gas Association course 100-4 (re-inspection of cylinders)
