**Next scheduled review:** November 2025

**Policy** The SATCC Board of Directors will designate or remove the designation of a voluntary trade, subtrade or occupation.

The Commission will refer any application for designation or de-designation of a trade, subtrade or occupation to an ad hoc Standards Committee for review, consideration, and recommendation to the Board of Directors. The Committee will follow a process of due diligence and will ensure the process is transparent to the industry and the public.

The Standards Committee will advise the Commission Board when there is interest in a designation or de-designation and keep the Board apprised as the process unfolds.

The Standard Committee will monitor progress of the application.

Board sector representatives may be involved in the process.

The Commission staff will work with the association or group to complete the application.

When the application is completed and submitted to the Commission, the staff will summarize the documentation for review and consideration by the Standards Committee.

The Standards Committee will establish a time frame for its review and recommendation to the Board.

The Standards Committee may meet with representatives of the group requesting designation or de-designation, once the application has been reviewed.

The Standards Committee will, with the support of Commission staff, take appropriate steps to seek further information and communicate with the industry stakeholders and additional interested parties.

Based on information received, the Standards Committee will forward to the Commission Board a recommendation to designate, de-designate, not to designate or not to de-designate a voluntary trade, sub-trade, occupation, or area of endorsement, along with the rationale for its recommendation.
