

Domestic Gasfitter Licensing Examination Information

Domestic Gasfitter is not a designated trade in Saskatchewan. The Domestic Gasfitter Licensing examination is administered as a partnership with the Ministry of Government Relations. Gasfitter licensing has been transitioned over to the Technical Safety Authority of Saskatchewan (TSASK) www.tsask.ca

Domestic Gasfitters are Journeyperson Plumbers, Steamfitter-Pipefitters or Refrigeration and Air Conditioning Mechanics who have pursued licensing as a Domestic Gasfitter by challenging the Domestic Gasfitter Licensing examination administered by SATCC and obtaining their license from TSASK.

If you have received a Domestic Gas Certification (or equivalence) outside of Saskatchewan, contact TSASK at 1-866-530-8599.

Refer to the appropriate table on the subsequent pages for prerequisites and requirements to challenge the examination. Approved domestic gasfitter courses are listed after all the tables.

Training is a prerequisite to be eligible to challenge the Domestic Gasfitter Licensing examination.

Candidates who require domestic gasfitter training before being eligible to challenge the Domestic Gasfitter Licensing examination must register for the training directly with the training provider. Any fees related to the training are the candidate's responsibility.

Candidates must apply to the Saskatchewan Apprenticeship and Trade Certification Commission (SATCC) to write their Domestic Gasfitter Licensing examination.

Candidates must apply as a Trade Qualifier using MyATC to book an examination. This must be done before registering for gasfitter training. To apply for the Domestic Gas exam, a candidate must log into MyATC and select Browse Service Catalog> Trade Qualifier Application>Gasfitter. SATCC Trade Time Assessment will issue a letter stating eligibility or requirements, before a candidate is scheduled to write the Domestic Gasfitter Licensing examination. The gasfitter examination will not be scheduled until the SATCC has received all the required documentation to prove eligibility.

The SATCC requires a Gasfitter examination application, along with an appropriate course transcript before the certification examination will be scheduled. Unless otherwise requested, the applicant will be booked at the next possible examination date near their provided address.

- 70% average in the training is required.
- Based on location and seat availability, most examination challenges occur within 30 days of receiving the transcript.
- Applicants must challenge the examination within one year of application or they may forfeit the application fee

All information required to apply for the Domestic Gasfitter Licensing examination are available on-line at www.saskapprenticeship.ca

Examination Information:

The **Domestic Gasfitter Licensing** examinations are developed by the Saskatchewan Apprenticeship and Trade Certification Commission in co-operation with a committee of worker and employer representatives selected from industry. The pass mark for all examinations is 70%. Examination content is based on the expectations and standards for Saskatchewan tradespeople as follows:

Total number of questions on the Provincial Proficiency examination – 120 questions*

Subject	Percent	Number of Questions
Safety	4%	5
Mathematics and Trade Science	19%	23
Rough-in Procedures	18%	21
Venting	13%	16
Controls	13%	15
Installation of Equipment	12%	14
Propane	9%	11
Testing and Servicing	12%	15
Total	100%	120

**The number of questions on the Licensing examination, assigned to assess each Block of the NOA, as derived from the collective input from workers within the trade across the province.*

Note: the codebooks provided for candidates when taking the Domestic Gasfitter Licensing examination are:

- **Prior to Aug. 31, 2026, 2020 Gas Codebooks will be provided when candidates write the examination.**
- **After September 1, 2026, 2025 Gas Codebooks will be provided when candidates write the examination.**
- **Study all areas of the trade in preparing for the examination.**

To assist you, a list of reference textbooks is provided below. Note that ISBN numbers are subject to change. Please consult with your supplier to access their most current version of the text you are acquiring. It is not necessary to use these specific textbooks; you may find others which will be equally beneficial. You are encouraged to seek additional reference materials in all test areas.

- Fundamentals of Gas Utilization (3rd Edition) by John Dutton, pub. Centennial College Press ISBN 9780919852358
- Natural Gas and Propane Installation Code (2020). CSA B149.1, including SaskPower Installation Codes of Practice
- Propane Storage and Handling Code (2020). CSA B149.2, including SaskPower Installation Codes of Practice

Individual Learning Modules (ILMs) for Domestic Gasfitter may be ordered through <https://ilm.nait.ca/home> under Gasfitter.

*Unless otherwise noted, books listed here are available through the Saskatchewan Polytechnic Bookstore Call Centre: 1-866-569-8398.

NOTE: Textbooks **are not** usually available from libraries. When texts are being purchased, candidates should allow several weeks for delivery and several weeks for studying.
